Bringing you more ways to access HDR content, our TVs not only support the standard HDR video format, HDR10, but also Hybrid Log Gamma or "HLG". This compatibility with HLG future-proofs our models, so that one day you will be able to watch HDR over the air broadcasts.

Predicts the frame in between the frames to create smoother viewing in fast-paced scenes. Perfect for sport and movies.

Enhances the contrast of an image by optimising the darker and brighter regions to create a more realistic image.

Discover the Netflix® button on your remote control to jump from one adventure to another.
