Android TV gives you a smarter, easier way to get more from your TV.

A TV with down firing stereo speakers using Dolby Atmos audio processing will provide breathtaking sound that has impressive clarity, richness, detail, and depth. A consumer can experience Dolby Atmos in the cinema and get that same Dolby Atmos experience in the home like no other sound solution.

O televisor QLED crea cores más brillantes, más saturadas e más precisas. O LED da maioria dos televisores LCD emite luz branca, pero os dos televisores de punto cuántico emite luz azul.
