Bringing TV to Life

2022

toshiba-tv.com

Hello Toshiba TV

Bringing more colour, passion and power to home entertainment, Toshiba TV is spearheading the future of TV through aspirational design and trend-setting innovation.

Founded in 1875, the brand is building on years of technical expertise, having already achieved international acclaim with the release of numerous world-first and Japanese-first products and services, including the launch of the first ever colour TV in 1960.

With such a strong technological heritage, Toshiba TV is now set to enthrall the next generation of viewers, powering the imagination and unlocking emotion using cutting-edge visual and audio technologies.

Incorporating the very latest technology to provide the perfect reproduction of Depth, Colour and Pure Blacks. Toshiba OLED TV offers cinematic picture quality, superb motion-handling, and ultra-responsive 4K gaming with Game mode, the TVs deliver an immersive audio performance, straight out of the box.

QUANTUM DOT COLOUR TV

Billions of color up to 95% under the DCI-P3 Standards.

Quantum Dot Colour TV, quantum-dot television, is a new type of LED-backlit LCD TV. The blue LED light technology drives the blue hues of the picture, but red and green light is created by the quantum dots. This perfect combination helps to achieve the desired color.

Dolby Atmos

Elevate your entertainment with Dolby. Experience the immersive sound of Dolby Atmos® and go deeper into the story. It's easier than ever to take your entertainment to the next level with Dolby Atmos. Whatever kind of entertainment you love, it's better in Dolby and you won't want to experience it any other way.

Go inside the sound. Hear movies, games and more, like never before. DTS:X puts you into the center of a larger-than-life audio experience everywhere you listen, watch and play. When you're immersed in sound, explosions are bigger. Emotions grow deeper. Thrills multiply. Elevate your senses with DTS:X.

SOUND BY
ONKYO

To bring you a higher standard of TV sound quality, we have collaborated on the design of our speakers and subwoofers with leading hi-fi and home cinema brand, Onkyo. Enjoy a more uniform audio performance and make every seat in the room the "sweet spot".

HDR brings breathtaking colour, spectacular on-screen contrasts and life-like picture clarity to your viewing experience.

Dolby Vision

Enjoy your favorite entertainment in Dolby. Dolby Vision is now available on a wide range of devices. Take your entertainment to new heights when you stream your favorite shows and the best movies in Dolby.

More Ways to Access High Quality HDR Content

With HLG compatible TVs, you will be able to watch free HDR over-the-air broadcasts and IP streaming.

Bringing you more ways to access HDR content, our TVs support the standard HDR video format, HDR10.

The only way to experience IMAX's signature picture, sound and scale in the home, IMAX® Enhanced combines digitally remastered 4K HDR content and DTS® audio technologies with best-in-class consumer electronics products and streaming platforms.

IMAX[®] ENHANCED

TRU PICTURE ENGINE

TRU Picture Technology provides smooth, upscaled and more detailed viewing whatever you're watching.

T R U
F L O W

Predicts the frame in between the frames to create smoother viewing in fast-paced scenes. Perfect for sport and movies.

T R U
MICRO DIMMING

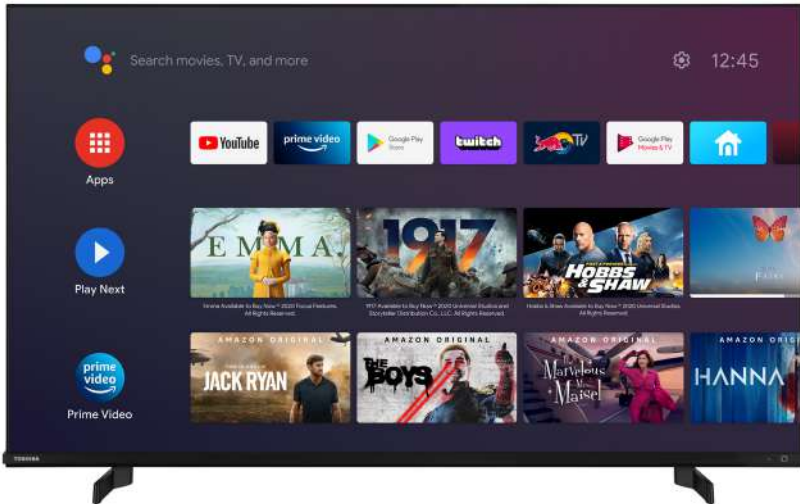

Enhances the contrast of an image by optimizing the darker and brighter regions to create a more realistic image.

T R U
RESOLUTION

Automatically up-scales incoming signal so you can experience your favorite movies and TV shows in the highest resolution.
