Dolby Vision Dolby Atmos

POWERED BY ONKYO

NETFLIX

QLED TV creates brighter, more-saturated, and more accurate colors. The LED in most LCD TV emits white light, but those in quantum dot televisions emits blue light.

A TV with down firing stereo speakers using Dolby Atmos audio processing will provide breathtaking sound that has impressive clarity, richness, detail, and depth. A consumer can experience Dolby Atmos in the cinema and get that same Dolby Atmos experience in the home like no other sound solution.

Immerse yourself in the on-screen action with one of our Toshiba Dolby Vision compatible TVs. The preferred HDR video format of movie makers around the world, Dolby Vision uses dynamic metadata to read and calculate exactly the right brightness level for every TV frame.

Automatically up-scales non 4K content so you can experience your favourite movies and TV shows in the highest resolution.

Enhances the contrast of an image by optimising the darker and brighter regions to create a more realistic image.

Simplifies the expansion of the surround sound listening by providing primarily the perception of height channels, without requiring additional speakers. DTS achieve 3D surrounding sounds natively without sound conversion process from 2D to 3D.

Guarantees the consumer the opportunity to enjoy this TV on all platforms: digital terrestrial / satellite and internet according to the latest technology standards. Allows access to the new DVB-T2 without additional decoders; to tivusat free satellite platform (a tivusat certified smart card needed); to TV on demand services, contents of the la...

With tivusat 4K Ultra HD certified TV you can enter the world of tivusat for free with over 150 national and international channels: 56 in HD, 7 in UHD and interactive services from the most important Italian broadcasters. No subscription required, only insert tivusat certified CAM and activate the smartcard. You will see more, better, hassle-fr...
