HDR10 HYBRID LOG GAMMA	TRU RESOLUTION	TRU FLOW	TRU MICRO DIMMING
Bringing you more ways to access HDR content, our TVs not only support the standard HDR video format, HDR10, but also Hybrid Log Gamma or “HLG”. This compatibility with HLG future-proofs our models, so that one day you will be able to watch HDR over the air broadcasts.	Automatically up-scales non 4K content so you can experience your favourite movies and TV shows in the highest resolution.	Predicts the frame in between the frames to create smoother viewing in fast-paced scenes. Perfect for sport and movies.	Enhances the contrast of an image by optimising the darker and brighter regions to create a more realistic image.
